

## Curriculum Vitae

- Name: Byungsuk Kwon
  
- Academic career
  - 1984-1991: BS in Agronomy, Seoul Nation University
  - 1992-1997: Ph.D. in Anatomy and Cell Biology, Wayne State University School of Medicine
  - 1997-1999: Postdoc fellow, Indiana University School of Medicine
  - 1999-2003: Research Assistant Professor, Immunomodulation Research Center, University of Ulsan
  - 2003-2007: Assistant Professor, Department of Biological Science
  - 2007-2012: Associate Professor, School of Biological Sciences
  - 2012-present: Professor, School of Biological Sciences
  - 2011-present: President, Korean Society of Immunotherapy
  - 2013-present: Vice-president, Korean Society of Experimental Hematology
  - 2013-2015: Vice-Director, University of Ulsan Foundation for Industry Corporation
  - 2016-present: Vice-Director, Biomedical Research Center, University of Ulsan
  
- Membership
  1. American Society of Hematology
  2. American Association of Immunologists
  3. Korean Society of Hematology
  4. Korean Society of Hematopoietic Stem Cell Transplantation
  5. Korean Society for Transplantation
  6. Korean Association of Immunologists
  7. Korean Society for Molecular and Cellular Biology
  8. Korean Society for Biochemistry and Molecular Biology
  
- Editorial board
  1. Immune Network (2008-present)
  2. The Open Journal of Tissue Engineering and Regenerative Medicine (2007-present)
  
- Awards
  1. 2002 American Transplantation Society Young Investigator Award

2. 2012 The Great Citizen Award of Ulsan in Academia and Science
3. 2013/2014/2018 Excellence in Research from University of Ulsan

- Review of papers

Journal of Immunology, Journal of Leukocyte Biology, Cytokine, Journal of Human Immunology, Journal of Translational Medicine, Neuroscience, BMC Immunology, Plos One, Nat Rev Rheumatol, Future Virology, Oncotargets, 韓 Oncoimmunology, etc.

- Book chapter

Cho HR, Kim SI, Kim B-S, **Kwon B**. Transplantation and immunity. In: Kidney transplantation; theory and practice, Park KI, Cho BH, Kim YS, ed, p105-117, Seoul, Medical Culture Company. 2004.
